Oceans & Coasts | National Oceanic and Atmospheric ... Climate change, sea level rise, more intense storms, and population growth are all challenges for our coastal communities. The National Ocean Service helps decision makers find solutions. We are the nation's leader in observing, measuring, assessing, protecting, and managing coastal, ocean, and Great Lakes areas. Ocean - Wikipedia An ocean (from Ancient Greek Ὠκεανός, trans. Okeanos) is a body of saline water that composes much of a planet's hydrosphere. On Earth, an ocean is one of the major conventional divisions of the World Ocean. These are, in descending order by area, the Pacific, Atlantic, Indian, Southern (Antarctic), and Arctic Oceans. The word "ocean" is often used interchangeably with "sea" in. Ocean.com Ocean.com.

Ocean Habitat - Kids A sea, however, is a small area of an ocean, usually with land on several sides. The Mediterranean, nestled between Africa and Europe, the Baltic in northern and central Europe, and the Caribbean between North, Central, and South America are all seas. Ocean - Britannica.com Ocean, continuous body of salt water that is contained in enormous basins on Earth's surface. When viewed from space, the predominance of Earth's oceans is readily apparent. The oceans and their marginal seas cover nearly 71 percent of Earth's surface, with an average depth of 3,688 metres (12,100 feet. Earth's Oceans - EnchantedLearning.com The oceans of Earth serve many functions, especially affecting the weather and temperature. They moderate the Earth's temperature by absorbing incoming solar radiation (stored as heat energy). The always-moving ocean currents distribute this heat energy around the globe.

Map of Oceans | Oceans of the World Map and Information ... For many years only (4) four oceans were officially recognized, and then in the spring of 2000, the International Hydrographic Organization established the Southern Ocean, and determined its limits. Those limits include all water below 60 degrees south, and some of it, like the Arctic Ocean, is frozen. Oceans - National Geographic National Geographic's latest stories about oceans. The category one storm could rapidly grow over the next 24 hours before hitting the gulf.
